DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's amendment filed on September 20, 2004. Claims 1, 4, and 10 have been cancelled. Claims 2, 3, 5, 7, 9, 12, and 17-23 have been amended. Applicant's comments pertaining to the Norquist reference are acknowledged. The claims, as amended, have been carefully considered but however are rejected for the reasons below.

The terminal disclaimer filed on September 20, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,684,529 has been reviewed and is NOT accepted.

The terminal disclaimer does not comply with 37 CFR 1.321(b) and/or (c) because:

The person who has signed the disclaimer has not stated the extent of his/her interest, or the business entity's interest, in the application/patent. See 37 CFR 1.321(b)(3).

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 3743

Claims 1-28 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 6,684,529. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims in the instant application are merely broader than that of in the U.S. Patent No. 6,684,529. The claims in the U.S. Patent No. 6,684,529 anticipate the claims in the instant applicant. Therefore, the two sets of claims are not patentably distinct.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
